RESEARCH PLAN

Provisional title:

Your cool title is epic and goes here.

StudentName M. Lastname

Supervisor:

Prof. Name M. Last

Co-supervisor:

Prof. Name M. Last

EPFL - ETHZ
Joint Doctoral Program in the Learning Sciences

JDPLS

EPFL ETH zürich

Summary

The summary should characterize the planned PhD work: give a brief presentation of the topic in the framework of which the planned research is to take place. At the end of the summary, please characterize the project in the form of eight keywords.

Keywords: kword1, kword2, kword3 ... kword8.

State of research

State of research: referring to the main scientific publications in the field, indicate knowledge gained so far in the concerned research domain, specify gaps that remain to be filled, and indicate research going on in this field in Switzerland and abroad. [ZXY, 2024]

State of research completed

State of research conducted by the candidate: indicate work already performed by the candidate in the research domain or in a neighbouring domain.

Detailed research plan

Detailed research plan: on the basis of information given under *State of Research* and *State of Research Done*, indicate the scientific and technical objectives you envisage to meet during the three years of PhD work.Show the importance of the results that you are planning to obtain and the developments they can lead to: which are the inquiries, studies, analyses or investigations you are proposing to perform to meet the objectives indicated above? how is the first stage of work planned to unroll? how do you envisage the next stages? Specify the methods you plan to use to meet the objectives: methods directly applicable in the PhD work methods that can be used in collaboration with third parties (advice, services, etc.) methods that have yet to be defined and developed.

Timeline

Timeline of full project: as far as it is possible to have a general overview of a project that will spread over several years, specify the time schedule of the different project phases.
