### Block with nested columns

- Keep text information clear and concise
  - Include some math as well:  
 $F = ma$
- Some possible justification for having sub-columns and why you shouldn't be banished to the nether.  
Also some conversation on the math out left because despite this formatting travesty it is an interesting point. Does  $F = ma$ ?

### Highlighted Block

Use highlighting to bring attention to a key section or result, can also be used to reduce contrast with images on white background.
